WHAT'S IN A PUFF BAR?

WARNING:

- “[Puff Bars] are not smoking cessation or nicotine replacement therapy products.”
- “Do not use Puff Bar products if you are taking **Theophylline**, **Ropinirole** or **Clozapine**.”
- Puff Bar products may expose you to certain chemicals identified as harmful and/or carcinogenic, including aldehydes, volatile organic compounds, and metals.

All Puff Bar products listed on this website contain nicotine but do not contain tobacco or anything derived from tobacco. Puff Bar products are not intended for use with any tobacco product or any component or part of a tobacco product.

WARNING: Puff Bar products are not intended to diagnose, treat, cure, or prevent any disease, condition, or disorder and are not smoking cessation or nicotine replacement therapy products. The FDA has not reviewed these products, nor has it evaluated their safety or any of the statements made regarding these products. Puff Bar products contain nicotine, which is a highly addictive substance, and are intended to be used only by adults at least 21 years of age who use combustible cigarettes or other tobacco or nicotine vaping products. Do not use Puff Bar products if you are pregnant or nursing, if you have heart disease, high blood pressure, diabetes, ulcers, liver or kidney disease, throat disease, asthma, or difficulty breathing. Do not use Puff Bar products if you are taking theophylline, ropinirole, or clozapine. As with other nicotine products, use of Puff Bar products can increase your heart rate and blood pressure and may cause nausea or dizziness or aggravate existing respiratory conditions. Use of Puff Bar products may expose you to certain chemicals identified as harmful and/or carcinogenic, including aldehydes, volatile organic compounds, and metals.

⚠️ WARNING: Puff Bar products can expose you to chemicals including glycidol, which is known to the States of California to cause cancer, and nicotine, which is known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov.

WARNING:

- “Puff Bar products can expose you to chemicals including **Glycidol**, which is known to the State of California to **cause cancer**, and nicotine, which is known to the State of California to cause birth defects or other reproductive harm.”

- ADHD
- Mental health issues
- Susceptibility to substance misuse

VAPING AND THE LAW

Tobacco and related Products Regulations (TRPR) 2020

- Restrict e-cigarette tanks to a capacity of no more than 2ml
- Nicotine strength of no more than 20mg/ml
- Products or their packaging to be child-resistant and tamper evident
- Ban certain ingredients including: colourings, caffeine and taurine
- Include new labelling requirements and warnings
- All e-cigarettes and e-liquids be notified to the **MHRA** before they can be sold

HARM REDUCTION ADVICE

- ✓ Only buy **licensed** nicotine containing products (NCPs)
- ✓ Choose a vape with less nicotine or **NONE AT ALL**
= **10mg or less**
- ✓ Charge correctly and replace faulty batteries
- ✓ Try not to vape if you are a non-smoker
- ✓ Avoid flavours with the ingredient 'Diacetyl'

GETTING HELP

- Nicotine replacement therapy
- Visit your GP
- See your School Nurse
- Contact Project 28 for a referral
- Understand why you became addicted in the first place

DEALING

- Underage buying and selling
- Re-selling unregulated products
- Illegal in the UK
- Counterfeit products
- Unknown ingredients, unknown risks
- Increased chance of serious illness or even death
